

PRESS RELEASE

Datalex partners with Anacomp Ltd

Datalex, the specialist provider of litigation support and document management services, will be working in partnership with business process solutions provider Anacomp Ltd, owner of hosted litigation support software CaseLogistix.

Datalex will be providing Anacomp with a range of value-added services such as scanning, coding and data processing, in order to complement CaseLogistix's hosting capabilities.

The partnership will be essentially focused on the UK market, however potential business opportunities in Russia are also to be considered.

Philip Demetriou, Datalex Managing Director comments: "We are delighted to have formed this alliance with Anacomp Ltd. They have a fantastic reputation within the industry and such a relationship can only be beneficial to our clients. CaseLogistix, Anacomp's legal software tool, is a great product and with its Unicode capabilities will prove to be an attractive solution to many of our clients who have experienced difficulties in the past when searching through large amounts of Unicode documents".
